(Starting with Bachelors up-to the highest qualification)

Area (s) of specialization: (Five Lines)

My area of specialization is environmental management and sustainable development with special emphasis on waste disposal, material recovery and recycling. I have worked on municipal solid and liquid waste management of small and medium towns. I am currently working on a book about sustainability of municipal waste management systems. I am also studying the process of formation, growth, decay and management of urban slums.

Publications:
